Education

The University of Chicago

Chicago, IL

B.S. Computer Science, B.A. Statistics | GPA: 3.57/4.0

Sep 2024 – Jun 2028

- **Financial Markets Program:** selective three-year quantitative finance program with experiential workshops, mentorship, and coursework at Chicago Booth.
- **AI Development Program:** four-part workshop series on practical AI development, spanning coding foundations, context engineering, prompt optimization, and AI agent architecture (agent loops, monitoring, safety, HITL design).
- **Involvement:** Maroon Capital (Analyst), Sports Analytics Group (Web Developer), Maroon Capital Ventures (Associate Partner), Algo Group, Kappa Theta Pi Tech Fraternity, College IT (Part-Time Computer Assistant).
- **Relevant Coursework:** Theory of Algorithms, Data Structures, Databases, Systems Programming, Discrete Mathematics, Numerical Linear Algebra, Applied Regression Analysis, Computer Science I & II.

Professional Experience

SAS

Cary, NC

Software Engineer Intern — Data Flows Team

May 2026 – Present

- Collaborate with UX and testing teams in an **agile/scrum** environment to engineer canvas grid and alignment features for SAS Data and AI Studio data flows, the visual interface used by customers across 90% of Fortune 100 enterprises.
- Implement gridline rendering, snap-to-grid, and real-time alignment guide logic using **React**, **TypeScript**, and **GoJS**, experimenting with **Storybook** to improve layout precision for large-scale enterprise data flows.
- Author **40 Jest unit tests** and **Playwright** end-to-end integration/regression suites, securing 90%+ code coverage within automated CI/CD pipelines.

North Carolina Football Club

Cary, NC

Data Analyst (Part-Time)

Jul 2025 – Oct 2025

- Cut coaching staff manual reporting time by **80%** via weekly Plotly/ggplot2 dashboards showcasing performance trends.
- Built a PostgreSQL database centralizing performance metrics for 25+ professional athletes across training and matches.
- Ingested 30,000+ StatSports GPS entries in **Python/R**, surfacing load and recovery trends for coaching decisions.

Projects

Make 24: Online | *React, TypeScript, Vite, Supabase, Tailwind CSS*

Apr 2026 – Present

- Build the first real-time multiplayer version of the classic 24 Game reaching 50+ users with solo, timed, and 1v1 modes, ELO ratings, and friend challenges.
- Engineer a custom TypeScript game engine: recursive solver, seeded puzzle generation, undo logic, and multiple modes.
- Design a real-time multiplayer state-sync layer over Supabase Realtime, handling concurrent move resolution, ELO-based matchmaking, and reconnection recovery to keep game state consistent across dropped or rejoining clients.

Swarm Wallet | *TypeScript, React, Node.js | Top 3 Inference Track — Uncommon Hacks*

May 2026

- Built an AI shopping platform launching parallel AI browser agents across 6 live retailers, reducing search time by 60%.
- Orchestrated a multi-agent pipeline with BrowserBase Stagehand for structured data extraction streaming live browser agents via WebSocket.
- Integrated Snowflake for persistent search memory, caching price history and product comparisons so structurally similar queries reuse existing benchmarks instead of re-running full agent searches.

UChicago Sports Analytics Group Website | *React, TypeScript, Vercel*

Dec 2025 – Present

- Solely designed and developed the organization's official website, built with React/TypeScript and deployed on Vercel, drawing **400+ page visits**.
- Own the full site lifecycle with feature development, content updates, and maintenance collaborating with board members.

Technical Skills

Languages: Python, JavaScript, TypeScript, HTML/CSS, SQL, R, C

Frameworks & Tools: React, Git, Linux/CLI, Storybook, Next.js, Node.js, AWS, Tauri, n8n, Pandas, NumPy, Docker

Databases: PostgreSQL, Supabase, Snowflake, MongoDB

AI/ML: PyTorch, scikit-learn, RAG, Claude/OpenAI APIs

Leadership & Activities

University of Chicago Varsity Men's Soccer

Chicago, IL

NCAA DIII Student-Athlete | All-American (4th Team), All-Region & All-UAA (1st Team)

Aug 2024 – Present

- One of ~50 DIII players nationally to earn All-American honors while committing 25+ hrs/week to training and games.
- Earned UAA Presidents Council Scholar-Athlete (2025–26), CSC Academic All-District, and Academic All-UAA for combined athletic and academic performance.
- Serve on team leadership council, Order of the C representative; help coordinate student-athlete initiatives.
